Motivated Web Developer with an MBA, bringing a unique blend of technical expertise in front-end and back-end development (HTML, CSS, JavaScript, API integration) and business acumen. Proven ability to deliver responsive websites, improve user experience, and apply strategic thinking to development projects. Eager to leverage both technical and business skills to contribute to impactful web development initiatives.

Skills

Technical Skills:

Front-End Development: HTML, CSS, JavaScript, Bootstrap, React.js, Responsive Design, Agile methodologies

Back-End Development: Node.js, SQL Server, API Development, Git

UI/UX Design: User Experience, User Interface, Wireframing

Soft Skills:

Communication, Team Collaboration, Problem-Solving, Leadership, Adaptability

Work Experiences

Front-End Web Developer

Matin Communication and Research, Shiraz, Iran

February 2021 - December 2022

- Enhanced load times by 20% and increased user engagement by 25% through optimized front-end design and user experience enhancements.
- Led a team of 3 developers in implementing API integrations, reducing project completion time by 15% through streamlined workflows and effective communication.
- Collaborated with back-end developers to ensure smooth data flow and user interface functionality, resulting in a 99% uptime across all projects.

WordPress Developer

Freelancer, Shiraz, Iran

May 2019 - December 2020

- Reduced website development time by 20% by creating reusable WordPress templates, increasing client project turnaround and satisfaction.
- Optimized SEO optimization for 10+ websites, boosting organic traffic by an average of 25% within the first 6 months post-launch.

Information Technology Support Assistant

Oil Industries' Commissioning & Operation (OICO), Asaluyeh, Iran

March 2018 - March 2019

- Resolved 85% of technical issues for over 200 end-users on the first call, significantly improving response times and customer satisfaction.
- Reduced system downtime by 20% through proactive maintenance, ensuring optimal performance and security across company networks.

Back-end Developer

Notrino Web, Shiraz, Iran

March 2014 - August 2016

- Developed server-side logic for 20+ client projects, reducing processing times by 15% using optimized PHP and Laravel frameworks.
- Improved database query efficiency by 25%, leading to faster project delivery by 10% and increased client satisfaction by reducing system delays for high-volume requests.

Canadian Experiences

Line Cook

Cactus Club Cafe, Coquitlam, BC

April 2023 - Current

- Collaborated with a team of 20+ kitchen staff to prepare 400+ meals daily, maintaining a 98% consistency rate in quality, which significantly improved customer satisfaction and team efficiency.
- Enhanced communication between kitchen and front-of-house staff to resolve customer requests quickly, reducing wait times and improving overall service experience.
- Optimized workflows and preparation processes, reducing average meal prep time by 15% and improving operational efficiency during peak hours.

Education

MBA in Master of Business Administration

September 2024

University Canada West at Vancouver, BC

In addition to core business courses, I have completed specialized coursework in Marketing Management, Agile Project Management, and Small Business Management, which have significantly enhanced my ability to approach web development projects with strategic business insights and agile methodologies.

Bachelor of Science in Software Engineering December 2014

Shiraz Azad University at Shiraz, Iran
